PROFESSIONAL SUMMARY

Information Systems undergraduate at UIT – VNU-HCM seeking a full-time **Backend Developer Internship** to apply and deepen backend engineering skills in a real-world environment. Experienced in building REST APIs with **Java Spring Boot 3**, implementing JWT-based authentication with Spring Security, designing relational schemas with **MySQL / PostgreSQL** using JPA / Hibernate, and integrating third-party services (payment gateways, shipping, OAuth2). Familiar with **Docker, Docker Compose, and production deployment on GCP**. Skilled at leveraging AI coding assistants (Claude Code, Cursor, Codex) through structured prompts, rules, and project context to accelerate delivery while maintaining code quality.

EDUCATION

University of Information Technology (UIT) – VNU-HCM

2023 – 2027

Major: Information Systems

GPA: **8.5 / 10**

Ho Chi Minh City

TECHNICAL SKILLS

Backend: Java 17, Spring Boot 3, Spring Security, JWT / OAuth2, Spring Data JPA / Hibernate, REST API design, OOP / SOLID principles.

API & Testing: Postman, Swagger / OpenAPI, layered architecture, DTO mapping, Global Exception Handling.

Database: MySQL, PostgreSQL – schema design, indexing, JPA repositories, relational modeling.

Third-party Integration: Payment gateways (MoMo, VNPay), Shipping APIs (GHN), OAuth2 (Google), Email service (Resend).

DevOps & Cloud: Docker, Docker Compose, Git, GitHub Actions (CI/CD), Linux, Caddy reverse proxy, GCP (Compute Engine, Cloud SQL), AWS (basic).

Frontend (Basic): React, Next.js, TypeScript – sufficient for consuming and testing backend APIs.

AI-Assisted Development: Effective use of **Claude Code**, **Cursor**, and **Codex** in real projects – writing project-level rules (CLAUDE.md, AGENT.md), managing context window for large codebases, designing custom Skills for repeatable workflows, and prompt engineering for code generation, refactoring, and debugging.

KEY PROJECTS

Camera Shop Backend – E-commerce Camera Marketplace

- **API Design:** Built a full-featured Spring Boot 3 e-commerce backend with 11 controllers covering Auth, Products, Cart, Orders, Rentals, Favorites, Notifications, Payments, Shipping, Categories, and Assets.
- **Authentication & Security:** Implemented JWT-based auth (HMAC-SHA256, 24h expiry) with Spring Security filter chain; integrated **Google OAuth2** login and email verification flow for local registration.
- **Third-party Integration:** Integrated **MoMo** and **VNPay** payment gateways with IPN callback handling, and **GHN** shipping API for fee calculation and tracking.
- **Database & Architecture:** Designed relational schema with MySQL 8 + Spring Data JPA; built notification scheduler, global exception handler, and data initializer; followed layered architecture (Controller / Service / Repository / DTO / Entity).
- **DevOps:** Containerized with Docker + Docker Compose for consistent dev / production environments.
- **Technologies:** Java 17, Spring Boot 3.2.4, Spring Security, JPA / Hibernate, MySQL 8, JWT, Maven, Docker.
- **GitHub:** github.com/minhphuong150505/Mobile-App_Backend

BABÉ 26 – Running Event Landing Page & Admin Dashboard

- **API Design:** Designed and implemented 6 REST endpoints for contact submission, newsletter subscribe / unsubscribe, UGC challenge registration, slot booking, and admin authentication using Spring Boot 3.2.
- **Authentication:** Built JWT-based admin auth with Spring Security to protect the admin dashboard at /admin.
- **Database & Email:** Designed MySQL 8 schema for UGC submissions, contacts, and newsletter; integrated **Resend** API for transactional confirmation emails.
- **Production Deployment:** Deployed on Google Cloud Platform – e2-small VM (Compute Engine, static IP) + Cloud SQL MySQL; configured **Caddy** reverse proxy for automatic HTTPS / TLS, routing both API and frontend traffic.
- **Technologies:** Java 17, Spring Boot 3.2, Spring Security, JPA, MySQL 8 (Cloud SQL), Docker Compose, Caddy, GCP.
- **GitHub:** github.com/minhphuong150505/landing-page

AWARDS & SCHOLARSHIPS

Outstanding Student – UIT, Semester 2	2024–2025
Academic Scholarship (Top 8% of major) – UIT, Semester 2	2024–2025
Academic Scholarship (Top 8% of major) – UIT, Semester 2	2023–2024

SOFT SKILLS & LANGUAGES

-
- **Soft Skills:** Self-directed learner, clean code mindset, strong problem-solving, fast learner.
 - **Languages:** English (Basic technical reading; actively improving).
